Introduction

Established in 2008 by Mr. Gunawan Subagyo, CV. Ikhsan Mandiri began its operations in Balikpapan as a small-scale enterprise (Qualification “K”), primarily focusing on the supply of goods for VICO Indonesia (now Pertamina Hulu Sanga Sanga). Through consistent performance and commitment to quality, the company steadily grew into a trusted and reputable supplier within the East Kalimantan region.

In response to increasing customer demand and continued business expansion, PT. Karunia Makmur Utama was founded in 2012 as a medium-scale enterprise (Qualification “M”), further strengthening the group’s capability in procurement and service delivery.

The company’s growth accelerated significantly, and in 2019, PT. Karunia Makmur Utama earned the trust of a United Kingdom-based company to serve as the official agent for ROTORK actuators across Kalimantan and Sulawesi. This milestone marked the company’s transition into a broader role as a major provider of both goods and services.

Today, PT. Karunia Makmur Utama and CV. Ikhsan Mandiri work in synergy to deliver comprehensive solutions, each operating within its respective business scope to meet and exceed customer expectations.

VISION AND MISSION

VISION

Being a company in the field of procurement of goods and construction services that are professional, independent, trustworthy and trusted in all aspects of the company.

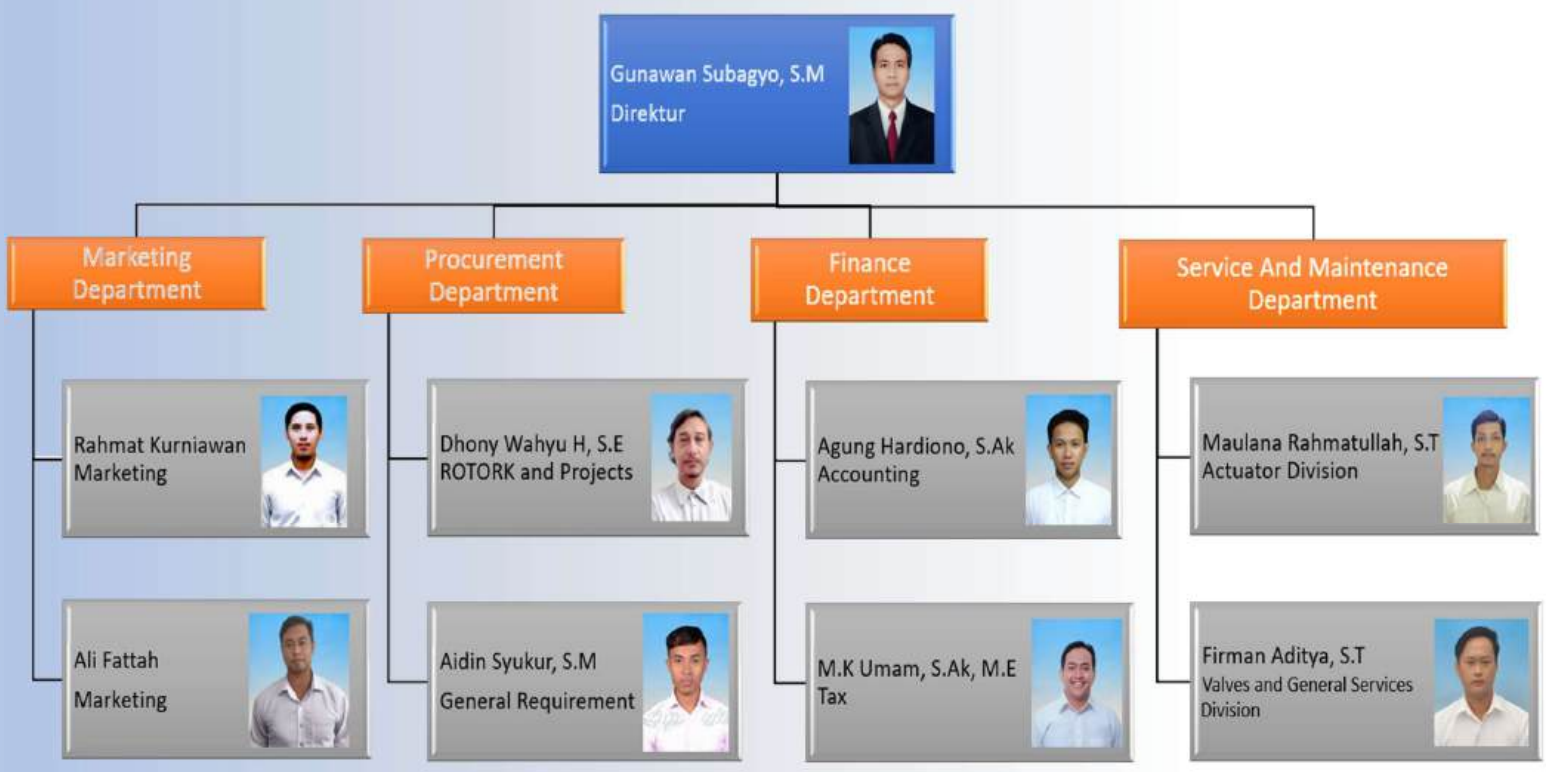

MISSION

1. Produce and improve quality products by providing the best service to customers (customer satisfaction).
2. Improving performance based on healthy, effective, efficient and innovative competition.
3. Increase company value and employee welfare.
4. Provide the Best Service to Customers.

CORPORATE STRATEGY

- In a balanced and sustainable manner, meeting HR needs based on the company's growth plans and needs
- Implement Occupational Safety and Health Management System (SMK3L) in every job
- Supports any stability and environmental sustainability in every job
- Reducing the level of influence in order to strengthen the balance sheet and adjust the strengthening of assets in funding
